

Safety Precautions During a Pandemic

As we continue to strive to enrich the quality of life for the residents of the Community of Hudson and the surrounding area during a pandemic, the Hudson Public Library will institute safety precautions as deemed necessary to protect the health of library patrons and staff. Precautions may include social distancing, the use of hand sanitizer, and mandatory wearing of masks or other facial coverings by all patrons over the age of 4, unless deemed medically unsafe. Restrictions may include limits on group gatherings, daily time limits on computers, daily time limits in the building, or complete closure of the building. Any patron wishing to have access to library materials without entering the building may call or email to place an order for materials to be picked up outside the building as long as staff members are available. The pandemic safety policy will be reviewed monthly at the Library Board of Trustees meetings until such requirements are rescinded.
